# WGC Genius Internship Program: 2018 -19

**Open to : Classes 1 to 8**

STEM (Science, Technology, Engineering & Mathematics) Based Program

## 1. Introduction

World Genius Council (WGC) is conducting World Genius Search Examination (WGSE) twice a year across the globe. It is open to all the students from Class 1 to 12. WGSE will be extended to Graduate and Post Graduate level from 2020 onwards.

We used to get a lot of requests for WGSE Study Material. We do not print study materials as our approach is different from others.

However, after enough brainstorming with our Advisory Board and many intellectuals in the field of education for the past three years, we have decided to introduce yearlong Genius Internship Program (GIP) for the students studying in Class 1 to 8 during the academic year 2018 – 19.

## 2. Genius Internship Program - GIP

Genius Internship Program will be the Pilot Project during 2018 - 19 and hence admissions will be open to class 1 to 8 for AY 2018 -19. GIP is a well-designed program which students can do at the comfort of their own home.

### 2.1. Prime Idea and How it Works

The prime idea of the Internship program is to equip the child with right and sharp decision making capabilities using what they learn in their school by connecting it with their own daily life situations.

### 2.2. Duration

WGC Genius Internship Program will commence from 18<sup>th</sup> June, 2018.

### 2.3. Subjects and Areas Covered

The following table indicates the professional coverage of relevant subjects for the respective Grades / Classes.

We are taking a futuristic approach at the students' level using 'STEM' (Science, Technology, Engineering and Mathematics) to mould them as effective decision makers with high moral values.

**Note :** Books, Notes, Links to Video Clippings and other required tools will be provided to them. Internet is required to view the suggested and prescribed videos and related activities.

#### 2.4. The Target:

Our children need to grow beyond the defined boundaries with sharp observation and accelerated thinking skills to make quickest decisions which are flawless and precise. We target it for children. What Euclid did and said 2300 years ago is still valid but many are not utilizing even 5% of its potential.

#### 2.5. Program Delivery

The books, notes and the assessment tools will be distributed through the respective school to all the enrolled students. In case the school is closed or the school is unable to distribute it to students as per schedule, it will be couriered to the student's residence.

#### 2.6. Instructional Approach

Our instructional approach will be focused on the following domains to mould them real time thinkers and leaders. We never want to know how much they can mug up and vomit out. We are concerned about the right nutrients to nurture them as world leaders who can even control a strong AI robot with accelerated artificial intelligence.

Instructional Approach is focused mainly on the following domains:

➤ <b>Class / Grade</b>	1	2	3	4	5	6	7	8
▼ <b>Domains</b>								
<i>Diverse Thoughts &amp; Learning Process</i>	✓	✓	✓	✓	✓	✓	✓	✓

### 2.8. Calibrated Assessments:

Our dynamic assessment mechanism will be focused on how children can approach any situation in life by using their developed ability to:

1. Distinguish a fact from Opinions

2. *Compare and Contrast*
3. *Detect Bias*
4. *Predict & Categorize*
5. *Analyze, Sequence and Summarize*
6. *Infer and make own Decision*
7. *Evaluate, Synthesize and Generalize*

When they develop the above to the desired extent, we can notice everlasting sparkles on their eyes!

With these skill sets, children can redefine their life and invent new theorems for others to follow.

### **3. Complete the Internship and be a Different Person**

Complete the internship as per the parameters suggested by us. A student can go beyond the parameters; but never get confined within the parameters. Academic Year 2018 - 19 will prove that the caliber of the student will be different from next academic year.

As you complete the internship, there are many things on store for you.

### **4. Genius Internship Award 2019 & Certification**

The Genius Internship Program will offer you the following too:

1. Genius Internship Award – Class wise; for the top performers
2. Genius Internship Award Certificate with Score
3. Personalized Caliber Report
4. List of domains where the student should focus
5. Report on Strength, Weakness and Limitations
6. Identified Giftedness & Remedial Measures
7. And an Elaborate Report on the following Scores:

1	<i>Analytical Reasoning</i>	13	<i>Investigation</i>
2	<i>Computation</i>	14	<i>Judgment</i>
3	<i>Collect Information</i>	15	<i>Logical Thinking</i>
4	<i>Comparison</i>	16	<i>Quantitative Analysis</i>
